WHEREAS, the Federal Aviation Administration, United States of America, hereinafter referred to as the FAA, is in a position to furnish directly services which the Austrian Bundesamt fuer Zivilluftfahrt, hereinafter referred to as the BAZ, has requested from the FAA on a reimbursable basis, and

WHEREAS, Section 305 of the Federal Aviation Act of 1958 (49 U.S.C. 1346) and Section 5 of the International Aviation Facilities Act (49 U.S.C. 1154) authorizes the FAA to provide services to foreign governments,

B. The flight inspection procedures used shall conform to the U.S. Standard Flight Inspection Manual and/or in accordance with ICAO Annex 10 for evaluation of Air Navigation Aid Facilities.

C. Within 30 days following the completion of the flight inspections, FAA will provide a written report to the BAZ specifying the results of the flight inspection together with appropriate recordings. In addition, the results of the flight inspection will be orally reported immediately after completion of the flight inspection.

D. An officer or engineer designated by the BAZ may accompany the aircraft during any or all phases of the flight inspection mission. No additional charge will be made for his carriage. Since no insurance can be provided, he must sign a waiver of liability of the U.S. Government prior to any participation in any flights.

E. The FAA will be provided in advance with a carnet, laissez-passer, or invitation from the BAZ, which will serve the following purposes:

1. Constitute a waiver of airport or other user charges. In the event a waiver of such charges is not possible, the costs incurred will be added to total charge for flight inspection performance.
2. Obviate the posting of bonds, technical equipment declarations, inventories and customs, and other entrance formalities.

F. The FAA may, upon written request, furnish site evaluation ground electronic equipment and/or an electronic engineer to assist in preliminary and final conduct of ground activities directly related to establishment or evaluation of air navigation aids.

¹ Came into force on 22 June 1978 by signature, with retroactive effect from 1 April 1978, in accordance with article V.
